

# 19" RACK MOUNT POWER STRIP

■■■■■■■■ WITH EXTENDED CHASSIS DEPTH & CIRCUIT PROTECTION

## 72RA130BMLEN-11

### FEATURES

- NEMA L6-30P Power Cord Connector
- IEC C13 Outlets
- Extended Chassis Depth for Easy Receptacle Access
- UL 489-listed Circuit Breakers
- Cable Retention Clips

### TECHNICAL SPECIFICATIONS

#### Input

- Power Input: Single Phase, AC
- Voltage Range: 240 VAC
- Current: 30 Amps Max. (24 Amps Derated)
- Input Protection: 2 x 15A Circuit Breakers
- Panel Indicators: Power-on, LEDs

#### Output

- Power Output: 5.76 KVA
- Output Receptacle: 12 x IEC C13

#### Physical & Environmental

- Size (Overall): 19.0"W x 1.72"H x 18.0"D
- Temp. Range: 0°C to 50°C
- Weight: ≈ 20 lb.

Are you looking for a rugged power strip with dependable protection? The 72RA130BMLEN-11 features these qualities and much more. This 1U design enables the user to access receptacles much easier due to the extended chassis depth. Receptacles are conveniently located closer to the rear of the rack. The 72RA130BMLEN-11 features one L6-30P input on a 12 foot cord and provides 240 Volts of AC power.

Output power is 240 VAC for the twelve IEC C13 receptacles. The current for the total combined load is rated at 30 Amps max., and total load capacity is 5.76 KVA.

The 19" power strip utilizes two UL 489-listed circuit breakers to manually control on/off operation of the receptacles. No fuses are used which allows the unit to return to service quickly and easily. For easy power-on indication, each circuit breaker features an LED power-on indicator. Additionally, each circuit is clearly labeled to help simplify load balancing. Suitable applications for this design include, but are not limited to, data center racks, blade server applications, defense ATE equipment, industrial ATE equipment, scientific instrumentation cabinets, and network operating centers.

Spectrum Power Management Systems knows how important it is to find the perfect power distribution solution. If this product doesn't fit your exact needs, our engineers will tailor a custom solution that you require. Call 814-272-SPMS and speak to Sales Representative today to create your perfect power distribution solution!
